 25X1C	3.	From 23 to 31 December, the Artillerie Kaserne was occupied by troops who were red-bordered black epaulets. The barracks buildings were SO percent lighted at nightfall. On 23 December, T-34 and T-34/85 tanks	
25X1A		in the billeting area.	25X1C
25X1		Comment. There are no changes discernible in the quartering of troops of the 18th Mecz Div in Perleberg since the last report. See	•
25X1A		The high number of 76.2-mm field guns in the Artillerie Kaserne, which is about 10 times higher than can be carried with the 58th Mecz Regt of the 18th Mecz Div, cannot be accounted	
		for. No information on the arrival of the guns by road or rail has been obtained, nor has there been information indicating the establishment of an ordnance depot in the barracks installation. Existence and purpose of the reported multi-barrel artillery piece are unknown. The type gun carriage is indicative of its use against air targets.	
		However, this conclusion discredited by the length of the barsel and the fact that no ballistic director was observed. It cannot be	
25X1A		stated whether the weapon was a rocket laurcher or a mortar. A multi-barrel artillery piece similar to a laurcher weapon of the	
		former German Army was previously reported from Bernau. . For sketch on the multi-barrel gun, see Annex.	25X1A

SECRET,

hulti-Crrel Gun Observed in the Artillerie Muserne, Perleborg, in mid-January 1953

Legend:

- Five barrels, each about 30 cm long and of 30 to 30 culiber
- 2 Lover and wheels 3 Seat for gunner 4 Sircular track

- 5 Actractable wheels 6 Stabi zation plates

SECRET,
